According to an old custom, it is likely that the republican convention will be belo in advance of the dem cratic conven tion, as it is usual for the party in possesion of the national government to hold their convention first. This i for the reason that the party in power takes the initiative in framing the issues of the campaign, being res on-

ONLY AGAINST THE VICIOUS.

The Richmoud Times, commenting amendment for this state, very truly adds that the white people of the south are not disposed to disfranchise the negro simply because he is a black man. "They are willing that intelligent negroes, who have the good of the commonwealth at heart, should have a voice in the government of the state. But they are unwilling that the negro shall forever be a marplot in their political affaire, a menace to good government, to pure politics and to peace and order."

Continuing, the Times says:

the hands of the negro masses they have voted solidly against the whites have in many instances enabled white scoundrels to get control of the government, have created racial feeling that too frequently resulted in bloody clashes and have generally demoralized southern politics.

"The whites have with wonderful patience and forbearance endured this sort of thing, have endured it longer than they ought to have done, and they are rapidly reaching the point where tolerance reases to be a virtue.

"We believe that our Raleigh contemporary is right when it says that the intelligent black men of North Carolina are quite as anxious as the white men that the cause of these abuses shall be removed We believe that the intelligent black men of Virginia would hail with delight a change in the Virginia constitution which would disfranchise the ignorant and vicious negro voters and hold out inducements to the negro to qualify for suffrage."

It is to be hoped the Southern will complete its sheds over the tracks at the new depot before the severe weather sets in. A fall of sleet on the inclined pavement extending from the doors of the depot to the racks wou d be dangerous in the event of one's losing his equilibrium. The fall would most probably land one under the wheels of the train.

In Defense of Mr. Todd.

In justice to Mr. Todd, whom I know well, and whom "A presbyterian Minister" admits that he does not know, I kindly ask that you will insert the nclosed notice in today's paper. I do not know who is the author of the nonymous (?) card which appeared in the Telegram a day or two ago, but I do know it does not sound in the least like our sweet-spirited Mr. Chas. Hodgin or Mr. Egbert Smith. I could not think of either writing anything so unkind of anyone, and especially if that person were a stranger. It must havy been written by a youthful student whom I hope the Holy Spirit will teach many things later on.
